

## **DIGITAL MEDIA CONTENT COMMITTEE (DMCC)**

**Wednesday, May 25, 2022**

**12:00-2:00**

**ZOOM**

### **Meeting Notes**

#### **Presentation (attached)**

Folsom Cordova (Kari Bjork) – Last day of school is tomorrow so the district is currently working on promotions and graduations as well as getting ready for summer school. Will have high school students coming in during the summer to help update Chromebooks that come in. Will also be creating easy to use tutorials.

#### **Round Table Sharing**

Twin Rivers (Jennifer Kramer) – Twin Rivers will have 3 weeks of summer PD available. Including training for Ed Tech team around interactive screens. Also training on Ed Tech tools and how to utilize them in the classroom. Blended learning will be a topic at the beginning of the next school year. Two-person team in Ed Tech. Luke will be focusing on getting media center up and running in the beginning of the year. Jennifer will focus on utilizing Ed Tech within curriculum. E-Sports will be a project in the new year.

Elk Grove (Erica Swift) – Summer planning for PD including Google workshops. Trying to structure them in a way that teachers do not have to attend multiple sessions to get credit. Trying to have PD around Ed Tech already planned out to rollout throughout the year.

San Juan (Nicole Naditz/Diane Boyd) – Modifying training and getting ready for summer. Giving teachers the opportunity to have a choice in what they will attend during summer training. Did purchase new virtual reality kit from Robot Lab. Kits are expensive, only purchased one to try out before buying more. Teachers seem to be struggling and are mostly interested in trainings they can do any time anywhere. District does not have an instructional technology plan. Have started the groundwork around what are the goals for the district around educational technology. Will restart process in the fall, this originally started before the pandemic and there have been so many lessons over the last few years that now need to be included. Taking a team to Fall CUE, want to be intentional about who is included and gets to go.

Sac City (Kendra Asbury, Tanis Haboush, Jasmine Piring Jones, Nova Katz) – Making sure that site-based support is meeting the needs of the site. Options may

be different for each site, especially independent study site. Looking to expand on digital citizenship work. Working on video tutorials as well. Had three major hurdles to overcome during the year. Just now moving forward from those. Training through SCOE at the end of the school year. Working with online school to ensure there are the basic tech skills in place.

Natomas (Mark Bornstein) – Working on building systems and getting everything together to move forward. Looking at working with teachers to utilize their expertise when it comes to planning trainings and lessons in the future. Building a coaching model. A few teachers have stepped forward and shown interest.

### **E-Sports:**

San Juan has first meeting in the next week. Natomas have a few teachers that have shown interest but do not have a district program. Sac City is rolling out grades 4-12 having a grade band for each. Reaching out to districts to get advice on how best to move forward. Elk Grove is at the beginning stages. A few middle schools are starting but working on standardizing permission slips. Fresno Unified has an established program that might be a good resource.

SECC will set up a meeting in July to discuss where districts are and a plan to move forward.

### **SECC:**

**Award Night Recap** – The in-person event was a huge hit! It was great to see families and students come together. The Livestream was also a success for many students who had family members that are not able to attend in-person events at this time. It was also nice to see media teachers from the area reconnect in-person after meeting via Zoom for the last two years.

**SEVA Teachers** – SECC is continuously building the SEVA Teacher roster and has a few new additions after the SEVA Awards. If there are any media programs, or teachers, that the committee knows of please feel free to connect them with SECC.

**Summer Projects** – SECC is available to help highlight any summer programs districts have going on and has offered video assistance to the FACE representatives from the districts. SECC is also planning a summer workshop for SEVA Teachers that will be formatted so teachers can only attend the sessions they are interested in, and not necessarily have to stay for the whole day.

**Graduations** – SECC is currently livestreaming graduations on the channels.

### **Next Year's Meetings – Wednesdays @ 12:00-2:00**

September 28<sup>th</sup> - San Juan

November 16<sup>th</sup> – Elk Grove

January 25<sup>th</sup> - TBD

March 22<sup>nd</sup> – Folsom Cordova

May 24<sup>th</sup> - TBD
